MOSELEY'S TUBULAR WROUGHT IRON

ARCH BRIDGES AND ROOFS. THESE Bridges and Roofs have now been fully tested.
In this vicinity, and it is universally conceded that they cannot be excelled. The Roofs are wholly of Wrought Iron, or mixture of Wood and Iron; Sheeting always Iron.

Wrought from or intended always from the Bridges are wholly Wrought Iron except the floor, which is wood, like the floors of ordinary Bridges. We are prepared to make these structures in any quantities, at prices about as follows:

Railroad Bridges, 50 feet span, 8,000 lbs, \$17 50 per foot lineal. Common Road or Turnpike, 50 feet span, 2,600 lbs. \$5 75 per foot lineal.

Roois, all iron, 50 feet width of building, \$25 per 100 squa, e feet, part wood and part iron, from \$12 to \$20

squa.e feet, part wood and part iron, from \$12 to \$20 per square.

Increase of span of bridges or width of buildings makes an increase of price, but the increase in price is no more than the increase of wooden structures.

We can furnish Iron of every size to work into Bridges and Roofs, and Railroads or other companies buying the right to use them and the iron of us, can make their own structures one third less than the above prices. Our structures weigh only trom 1.4 to 1-10 that of wood; difference in freight in a long distance buys our work. In a few days we will have at our Factory, 497 West Third street, in this city, four different specimens of our Roof, where the public can inspect them to their satisfaction. We beg them to give us a call, as all our work is warranted, and we ask no pay on ordinary jobs until the work is done and approved, payments being secured on contracting. From Rev. Dr. Tefft, late President of Gennessee Col-Gentlemen:—Having made a particular examination of Goodrich's "History of All Nations," I am free to say, that I know of no work, great or small, that contains half the amount of useful and entertaining matter for family reading. It is written in Mr. Goodrich's best-tyle. It is a library, a historical library of itself; and it is worth, according to the usual cost of good reading, two or three times the money you ask for it. It is no wonder that you have to keep a power press running constantly to supply the orders for these volumes; for the public have only to know their value to make them a universal want with all classes.

I am, gentlemen, most respectfully yours,

B. F. TEFFT.

Extract from a Letter from Ex-President Fillmore. I think it eminently deserving of the public patrocage. It is necessarily brief; but it brings under review, with its admirable illustrations, the principal subjects worthy of attention in all nations, and to the young especially, it is invaluable.

I have been familliar with Mr. Goodrich's writings for many years, and have the pleasure of a personal acquaintance with him; and think him admirably qualified for imparting instruction in a way that brings it within the reach of the common mind.

Many years have passed away since it was the custom in the South of Ireland to live in barracks. Not in the military quarters, usually so named, but among a set of merry boys and girls, and good humored men and women, in some wide, rambling, hospitable country house. The er to destroy, without exception, every Protest-ant man and grown boy in the country; but they usually, except in rare instances, respected the lives of women and children. The gentlemen, gay, gallant, well mounted, and well armed, formed themselves into yeomanry corps for the defense of their lives and properties; a large mansion in each district was selected, into which as many of the neighbors as the rooms would accommodate congregated. After the fire burned through the light amidship, a boat was lowered from the portside, which was instantly crushed, and another on the starboard side was swamped, from the number rushing into it. All the first cabin passengers were on the poop, excepting a lew gentlemen, who must have been smothered in the smoking room. Many of the second cabin passengers were also on the poop, but a number were shut up in the cabin by the fire. Some were pulled up through the ventilator, but the greater number perished in the flames. A woman was drawn up, who said that six were then alrendy suffocated. Several men and women jumped into the sea by twos and threes. Some of the women were then already in flames. Others hesitated until driven over by the advancing flames. In half an hour not a

The French bark Maurice, Capt. Ernest Renaud came along side at five o'clock, and received forty of the passengers, who were chiefly taken from the bow-sprit, but some were strug-gling in the water. Mr. Dunn says that it has been discovered that in all hogs afflicted with this disease, there is a 'false tooth' found, similar to the "blind tooth" in horses. This tooth is perfectly black in appearance, and seems to be a sort of an erratic or superfluous offshoot, growing out from the outside of the upper jaw, one on each side, and situated between the tusk and the grinders. Mr. D. informed us that two of his neighbors, Mr. O. P. Aiken and Daniel James, had examined a large number of hogs, and had found that every diseased hog had this black tooth.

Adulterations of Various Kinds.

In a discourse on the "Benefits and Evils of Commerce," the irreverend Henry Ward Beecher, in describing the evils of trade, alludes to the preparations for markets, home and foreign, burg on the 1st, and Southampton on the 4th, for New York, was destroyed by fire on the morning of the 13th inst. There were upwards of six hundred persons on board, only sixty seven of choice words, that such "goods are incarnated lies. We that consume are daily in the consumption of lies—we drink lying coffee —we eat lying food—we patch lying clothes with cheating threads—we perfume ourselves with lying estaken from the bow sprit. At 8 o'clock 22 sence—we wet our feet in lying boots,' &c., &c. others were taken up by one of the metalic boats, In illustration of this philippic, it is stated that Dr. Bailey, during the nine months he held the office of Examiner under the Government of the Goods, The fire originated from culpable careless United States, rejected at the port of New York ness in fumigating the steerage with burning over fifty-five tons of spurious or adulterated drugs and medicines. The Londou Lancet, in an article on the adulteration of coffee, says that let a microscopic examination of thirty-four differ-im ent qualities sold in London, showed that with three exceptions, the whole were adulterate Chichory was found in thirty one, with the additions often of roasted corn, beans or potatoes Extensive adulterarions of pepper, &c., are also mentioned, showing that these "lies of trade" abound everywhere, and extend to almost every

article of consumption.

But the most important adulteration of all was omitted by Rev. Henry Ward Beecher. It is the adulteration not only of the bread that perisheth, but of that which feeds the soul; the mixeth ture of impure and poisonous compounds of hu man invention with that Divine Revelation which has itself denounced the most fearful woes upon those who add to, or take from it. What does the Rev. Henry Ward Beecher think of the adulteration which makes anti slavery essential to salvation, and which substitutes for the prohibitions of stealing and murder in the Decalogue the new commandment, invented and promulgated by Beecher, Parker & Co., viz: that for the pur pose of accomplishing his liberation, it is lawful for a servant to take either the horse, or life, or both, of his master? Drinking "lying coffee, eating lying food, perfuming with lying essence, walking in lying boots." &c., as Beecher says he does, we might naturally expect lying doctrines also, though his Reverence is a shrewd trader, and does not warn us against his own adulterations. tions. The proportion of truth to error in one of his abolition discourses, is about the same as that of coffee to chickory in the London market, not more than a fifth of the whole article. And his own adulterations are as much more danger ous than those of other men, as the food of the soul is more important than that of the body. If he would teach people to quit fraud and impos-ture, let him give them a better example from the pulpit than his adulterations of the morality of the Bible, and his commendation, in certain cases, of stealing and murder .- Richmond, Va.

FRIDAY, OCTOBER 1, 1858.

The Democratic papers of Kentucky are publishing the following resolution passed at the recent New York Democratic State Conven-

2. Resolved, That the settlement of our Kansas question by the votes of the inhabitants of the Territory has removed that subject from Congress, and has left the future disposition of its in ternal affairs to its own people, subject only to the Constitution of the United States.

So, after all, the Kansas question was not settled by the Democratic Congress, but "by the fore in favor of the Lecompton Constitution, and votes of the inhabitants of the Territory." Truly the Democratic party ought to be very much obliged to the large free soil majority in Kansas for accomplishing that which two Democratic Administrations have tried in vain to do.

But how have "the votes of the inhabitants of that Territory" settled the Kansas question? They have decided by 9,000 majority that they upon them. They have decided, further, that they would rather continue in a Territorial condition, than to gain independent sovereignty by knavery by which it was adopted. They have settled" to the satisfaction of every man of "But if the law fails in its object, then it cerquestion directly to them, and were denounced as traitors and Abolitionists. But the Democratic Congress covertly submitted it to them under der these circumstances, the course to be purthe precious cloak of a "land proposition," and were endorsed in so doing by the Democratic men, of whatever party, will at once see the nepress and Conventions. This only proves that cessity of yielding to the force of circumstances, the Democracy prefer indirection and subterfuge to openness, fairness and plain dealing.

The settlement of the Kansas question by the votes of the inhabitants of that Territory has removed that subject from Congress" only until the people can form a Constitution which meets their approval and submit it to Congress; and every Democratic candidate for Congress in the free States, except the imbecile Cox, of Ohio, is pledged to admit her whenever she applies, without reference to the population she may have at the time. Their political salvation depended upon repudiating the clause of the English bill which compels the people of Kansas to accept the Lecompton Constitution or remain out of the Union until the Territory contained 93,000 inhabitants. The people of Kansas have never expressed a willingness to stay in their condition of pupilage until the Territory contains 93,000 souls. That question was never submitted to them, and they have never assented and never will assent to it. On the contrary they have already presented a petition to the Governor placed over them to immediately call an extra session of lish bill. Thus, although a little delayed, the the English bill, triumphantly declared that Kan-sas must come in as a slave State or not at all, upon this "settlement of the Kansas question by the votes of the inhabitants of the Territory."

We now have the pleasure of recording the fact that several other of our friends have taken premiums. At Eminence, Dr. Hugh Rodman, of our city, took the first premium for buggy mares three years old and upwards; Mr. T. F. BLAKEMORE, for buggy horses three years old and upwards; and Capt. J. W. Russell, for a yearling thorough bred filly. We also learn that our young friend, John A. Lewis, son of Rev. C. Lewis, took the first premium at Lexington, Eminence, and at the State Fair at Louisville, with his fine yearling stallion colt Japher, by Buford's before she got to her door. It seemed as Cripple—a son of Medoc—dam by John Rich- though the houses would tumble down. In ards. We clip the following in relation to the coffee pot from one of our Exchanges:

Wonderful .- It is astonishing to see how the "Old Dominion Coffee Pot," has superceded the old fogy coffee pots, formerly in use by families. Go where you please, and you will find the vir-tues of the "Old Dominion" spoken of, for the virtues it possesses in retaining the strength and arona of the coffee over all others now in use, and we are sure, no man has sufficient grounds to scold his wife, if he uses the "Old Dominto scold his wife, if he uses the "Old Domining over the ground in a raging torrent, sweepion." Movements in Kansas.

Southern Democrats have already taken the ground that there was no disposition on the part of the people of Kansas to apply for admission let them no longer lay that flattering unction to their souls. There seems to be, according to recent advices from Kansas, a very general disposition there, with men of all parties, to ask for a repeal of the population restriction in the English Bill, at the approaching session of Con gress. While it is admitted that there should be some established ratio of population for a State before obtaining admission into the Union, it is urged that the argument of precedents is a fair one. The Leavenworth Herald, heretoa Democratic journal, is in favor of the repeal alluded to. We call the special attention of Southern Democrats to what it says on the subject, in the subjoined extract:

"Other Territories have been admitted without the requisite population, and it is quite natural that a rigid interpretation and application of the law at this latter day, should be received with They have decided by 9,000 majority that they will not even for 5,000,000 acres of land come into the Union as a State under the fraudulently made Constitution as a State under the fraudulently made constitution. This it undoubtedly does. But while we are opposed to by the advice of Mr. Buchanan, sought to impose 'dead letter' upon the statute books, we see no reason why the law cannot be repealed. The object of the law was to prevent any further agi dition, than to gain independent sovereignty by tation of the subject in the halls of Congress un accepting a Constitution alike obnoxious to them til we could claim admission without the contraon account of its provisions and the unexampled riety of any existing laws opposing our demands, and thereby render a final adjustment of the sub-

sense that the Lecompton Constitution is not the organic law under which they desire to live.

Mr. Crittenden and Humphrey Marshall desired Mr. Crittenden and Humphrey Marshall desired bill in regard to population, then it will at once to give them an opportunity of submitting this be seen that the 'restrictive clause,' instead of able settlement of the 'Kansas question. and admitting Kansas as a State, and the only test which should be made upon the occasion is upon the merits of the constitution itself. In case a constitution liberal and republican in its provisions shall be presented, then we shall certainly advocate its adoption by Congress."

> BROWNLOW'S PICTURE OF HIS ANTAGONIST .-The last number of the Knoxville Whig is a decidedly spicy number. It contains a long the North to be anti-Lecompton, and predicts the letter written in Philadelphia during the stay of overthrow of the President's rule in the comthe Parson in his recent discussion on slavery, and speaks out quite freely upon matters and things in the Quaker City. He says every paper in Philapelphia is anti-slavery, and their reporters are Abolitionists and Black Republicans, with the exception of one man, who came from the South, and he has no voice in shaping the character of reports to be published. He draws a picture of his competitor in the slavery discussion, Mr. Pryne, which is not very complimentary. It is done up in Brownlow's own peculiar style as follows:

"Mr. Pryne is staying at the same hotel I do -the American. He is a small, heavy built man, about 36 years of age, and wears a ruffian the Legislature, in order that a Constitutional Convention may be convened and a Constitution forwarded to Congress during the coming winter; it is useless to say that Governor Denver, acting under the instructions of the President, has refused to grant the prayer of the people. As soon, however, as it can be done, a Constitution will be adopted and Kansas will be admitted will be adopted and Kansas will be admitted his abuse of the South, and is familiar with the under it; the Northern Democrats voting for her slang dictionary of Abolitionism. He has been admission in spite of the restrictions of the Eng. to my room frequently, but I have never been to lish bill. Thus, although a little delayed, the provisions of the much abused Crittenden amend ment will be substantially carried into effect. Rheumatism Cured!

Not less than about twenty thousand cases, of this painful and paralyzing disease, have already been cured by the use of Dr. Mortimore's cele brated remedy. These comprise cases of every seeming form of the disease, from those of a recent Inflammatory (acute) character, to old Chronic cases of ten, twenty, and even thirty years standing, and this after the patients had long been given up as incurable by eminent physicians. Some had taken voyages at sea, spent years of residence in the most salubrious climes, visit ed the various "Water Cure" establishments, and celebrated Springs, both in this country and Europe, yet had still remained cripples, until they used this remedy, and by its use have been Old Dud. restored to health.

This is a vegetable-internal remedy, prepared El Dorado, and recommended for this one disease alone. This it cures, and is perfectly safe to be used in any state of health, even by the most delicate fe. Mormon and Peters' male or child.

Evidence of the highest possible character from physicians, clergyman and others, is published in behalf of this remedy, such as to give it character with every intelligent or reflecting Amulet, mind. This evidence will be furnished to any address desired. The medicine is sold at \$5 per bottle, five bottles for \$20, or \$40 per dozen, and will be sent by Express, or as directed, to any part of the Union. Apply to or address

(as surveyed.)
It is one of the most desirable locations for an inland

town, in Western Texas. The soil adjacent is good, water excellent. Lots on main street, 75 feet front, 150 feet back, are now offered at FIFTY DOLLARS per lot; back lots, same size, at TWRNTY-FIVE DOLLARS per

lot.

The se who wish to commence business in a new town, or to double or treble their money, would do well by purchasing early, before the price of lots is raised. We will also sell the Tavern, known as the Gillock House, including the whole block upon which it stands.

Emigrants will find this to be as healthy and fertile a sortion of country as there is in almost any of the States. For further particulars call on us at our residence in MELBOURNE, or address us by letter, "Eclecto Post Office, Karnes county, Texas."

TO all persons afflicted with Sexual Diseases, such as I SPERMATORRHŒA, SEMINAL WEAKNESS, IMPOTENCE, GONORRHŒA, GLEET, SYPHILIS, the Vice of ONANISM, or SELF-ABUSE, &c., &c.
The HOWARD ASSOCIATION, in view of the awful destruction of human life, caused by Sexual diseases, and the deceptions practised upon the unfortunate vicitims of such diseases by Quacks, several years ago directed their Consulting Surgeon, as a CHARITABLE ACT worthy of their name, to open a Dispensary for the treatment of this class of diseases, in all their forms, and to give MEDICAL ADVICE GRATIS, to all who apply by letter, with a description of their condition, (age, occupation, habits of life, &c.), and in cases of exterme poverty, to FURNISH MEDICINES FREE OF CHARGE. It is needless to add tha the Association commands the highest Medical skill of the age, and will furnish the most approved modern treatment.

The Directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort, have been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves, with renewed zeal, to this very important but much despised cause.
